Casualties

**LETHALITY:
CASUALTIES BY CAUSATIVE AGENT**

A Working Bibliography of MHI Sources

CONTENTS

General Sources.....p.1
Early.....p.2
Civil War.....p.3
World War I.....p.3
World War II...p.3
Korean War.....p.4
Vietnam War.....p.5

GENERAL SOURCES

- American Power Jet Co. The Vulnerability of Personnel to Instantaneous Ground Burst Bombs.
Chevy Chase, MD: Johns Hopkins, ORO, 1952. 12 p. UL421.V84.
- Bruner, Joseph A. Some Observations on the Vulnerability of an Armored Division to Nuclear Weapons. Bethesda, MD: Johns Hopkins, ORO, 1957. 18 p. UL409.64.B78.
- Clark, Dorothy K. FOE: A Model Representing Company Actions. Bethesda, MD: Johns Hopkins, ORO, 1960. 28 p. U310.C52.
- Havron, M. Dean, et al. Fire Capability of Infantry Weapons. Arlington, VA: Psychology Research Association, 1957. 35 p. UD383.H3.
- Historical Evaluation and Research Organization. Historical Trends Related to Weapon Lethality.
4 vols. Report, Wash, DC, 1964. U800.H58.
- Holmes, Richard. Acts of War: The Behavior of Men in Battle. NY: Free Press, 1986. pp. 167ff.
U21.2.H625.
Anecdotal examples of low ratio of casualties to ammunition expenditure.

Lavin, Marvin. Destruction Rates for U.S. City Resources in the Event of Nuclear Attacks. Santa Monica, CA: RAND, 1959. 41 p. U167.4.L38.
and the subsequent Further Estimates of U.S. City Destruction in the Event of Nuclear Attacks: A Supplement to..., 35 p. UC34.A2ser2no4.

Military, Political, and Psychological Implications of Massive Population Casualties in History. Wash, DC: HERO, 1965. D25.5.H5v1.
