"Mine Combat Experience Gained in the Argonne."

WORLD WAR I-UNITED STATES

NOTE: Virtually all tunneling on the Western Front was performed by British and French units comprised of experienced coal miners. Of the many specialized engineer units in the AEF, only one, the 27th Engineer Regiment, was organized as a mining unit. US units of 27th and 30th Divisions engaged in tunnel fighting during the Somme advance, 29 Sep 1918, along the St. Quentin-Cambrai Canal tunnel. (js)
