E-AWARDS

In May 1942 the Army inaugurated its A-award program for war work in government and private plants. The Navy had its own E-award program of much earlier origin (1906). In July that year, both programs, along with the Army-Navy Munitions Board star-award program, were combined into the Army-Navy Production Award, generally known as the Army-Navy E Award. Stars were added for second and further occurrences of the award. See:

For Army officers only; supplement to joint manual.
