

Vietnam War Veterans Survey Inventory

Sensing that Vietnam War veterans were becoming more receptive to discussing their military service, the MHI initiated its Vietnam War veteran survey in mid-2002. However, with the exception of providing copies of the survey in the foyer and placing a copy of the survey on the AHEC's website, the MHI has not actively publicized the survey initiative. Once again, a number of college/university professors have used the Vietnam War questionnaire as an instructional aid with the MHI serving as the repository for the completed surveys.

In working with Vietnam-era veteran surveys, determining a unit of assignment often proves to be difficult. Key to processing completed surveys is the following reference work. Stanton, Shelby L. *Vietnam Order of Battle* (Washington, DC: US News Books, 1981. 396 pages. DS552.55.S73). This work was used to determine units of assignment.

The MHI also possesses a "Vietnam War Veteran Survey Photograph Collection," consisting of photographs acquired in conjunction with the ongoing survey initiative. The collection is not yet cataloged at the collection level. The collection presently consists of one box representing only a handful of photographs. Presently, no finding aid or inventory for this collection exists.

In addition to completed surveys, the MHI also possesses a substantial number of Vietnam War-related manuscript and photographic collections not acquired as a direct result of the ongoing Vietnam War veteran survey. Examples of manuscript materials include the Vietnam Veterans Interviews Collection, 1965-1971, conducted by Franklin and Marshall College undergraduates, and the CGSC Combat Command Oral Histories transcripts. Regarding photographs, there is the 73-box Vietnam Photos Miscellaneous Collection (RG123S). Such materials can be identified by using the MHI's electronic catalog and employing the following Library of Congress subject headings:

Vietnamese Conflict, 1961-1975 – Personal Narratives, American
 Vietnamese Conflict, 1961-1975 – Veterans – United States – Interviews

To assist researchers identify pertinent resources, the MHI has created a Vietnam War reference bibliography. The bibliography consists of 11 individual files and six folders on specific topics (Air Operations; Allies; Battles and Operations; Debriefings; Strategy; and Units and Commands), with each folder containing additional files. The MHI's reference bibliography is available on the MHI's website at http://www.ahco.army.mil/site/finding_aids_brief.jsp, then click on "Subject Bibliographies," followed by clicking on "Vietnam War".
