

## 95th Infantry Division

In 1942 a typical infantry regiment consisted of a headquarters and band, a headquarters company, a service company, an anti-tank company, a cannon company, and three infantry battalions.

In March 1943 the basic infantry regiment was reorganized to include a headquarters, a headquarters company, a service company, an anti-tank company, and three infantry battalions.

Each of the three infantry battalions consisted of a headquarters and headquarters company, three rifle companies and a heavy weapons company. Within each regiment, the 1st Battalion consisted of Companies A through D, the 2d Battalion consisted of Companies E through H, and the 3d Battalion consisted of Companies I through M (there was no Company J).

### Attached/Unidentified Units

Attached units supported the 95th Infantry Division at some point during the war, but were not organic to the division. Unidentified unit means that the veteran's survey indicated service with the 95th Infantry Division, but did not provide sufficient information regarding the specific subordinate unit.
